Facts on Headlice

- It can affect anyone. Lice are small insects between 2 and 4mm long. The eggs are the nits.
- They can live away from the head for 48 hours.
- Avoid head to head contact, and do not share combs and hats. Tie hair up.
- Treatments need to be repeated after 7-10 days as the cycle repeats itself.

- Skirts-how we sit and how they look. Skirt length.
- Counsellors
- Disposal of items
- Jewellery, make up, gum, nail polish
- Graffiti in bathrooms
- Spray deodorant
