Dear Parent/Caregiver

Re: Measles

Schools have recently received a Public Health message from the Auckland Regional Public Health Service regarding the circulation of measles across Auckland.

This week there has been a confirmed case of measles at Rangitoto College. While there have been no notified cases of measles at Murrays Bay Intermediate School to date, this is a good opportunity to ensure the information we hold for your child/children is up to date and accurate. Currently, we do not have a record of your child having received all of their vaccinations.

If your child **IS** immunised, please do one of the following:

Send a photocopy of your child's immunisation certificate to the office. Please make sure your child's full name and room number is written on this page.

OR

Email a photograph of your child's immunisation certificate to: immunisation@mbi.school.nz including your child's full name and room number in the subject line of the email.

In the future, if there is a confirmed case of measles at Murrays Bay Intermediate school and we do not have confirmation that your child is immunised for measles, we will require them to stay home from school for a period of time.

Thank you for your assistance in keeping our children safe.

Yours sincerely

A handwritten signature in blue ink that reads "Melinda Bennett".
